PAVLA TAKES FRIDAY NIGHT FEATURE AT INDIANA DOWNS

SHELBYVILLE, Ind.; August 23, 2013 – Friday night's feature race at Indiana Downs came in race 5; a \$40,000 allowance optional claimer on the turf for fillies and mares. The favorite Pavla made a five wide move for the win and a one mile route in 1:37.30.

Pavla broke the wire for her second win in a row at Indiana Downs while pushing jockey Rodney Prescott nearer to 60 wins this meet. The four-year-old filly is a John Chandler product and is trained by Alex Clarkson. With another win tonight Pavla threatens to eclipse \$100,000 in lifetime earnings in the near future. Pavla is by Badge if Silver and out of Rietondale.

Little Nip turned in a momentous late run for the lead after being checked earlier on. The four-year-old filly closed hard to the pace for a near miss and a second place finish. With Marlon St. Julien in the irons the veteran filly surpassed \$100,000 in lifetime earnings and brought

trainer Paul Darjean his first in the money finish at Indiana Downs. Little Nip is a Kenneth and Sarah Ramsey product by Kitten's Joy and out of Broadbush Beauty.

Afleet Lexi set and held the pace until the final sixteenth where she gave way to Pavla and Little Nip. The five-year-old mare and Dylan Davis were able to turn in a respectable third place finish despite weakening late. Afleet Lexi was claimed in tonight's action but was previously owned by TK Stables and trained by well-known trainer Kellyn Gorder. Afleet Lexi is by Afleet Alex and out of Tarkheena.

THE JOCKEY CLUB PROJECTS 2014 FOAL CROP AT 22,000, ANNOUNCES REVISIONS TO 2012 AND 2013 FOAL CROPS

The Jockey Club is projecting a 2014 North American registered Thoroughbred foal crop of 22,000, it was announced today by Matt Iuliano, the organization's executive vice president and executive director.

The Jockey Club also announced downward revisions for the 2012 and 2013 foal crops to 23,500 and 23,000, respectively. The original projection for both the 2012 and 2013 foal crops was 24,700.

Additional foal crop information is available in The Jockey Club's Online Fact Book at jockeyclub.com/factbook.asp and in the state fact books at jockeyclub.com/statefactbook.asp.

The foal crop projection, traditionally announced in mid-August, is computed by using Reports of Mares Bred (RMBs) received to date for the 2013 breeding season. RMBs are to be filed by August 1 of each breeding season.

"The revisions to the 2012 and 2013 foal crops are the result of receiving fewer reports after the August 1 reporting deadline of mares being bred," said Iuliano.

The 22,000 foal crop projection for 2014 represents a decline of 4.3% from the revised projection of 23,000 foals for 2013.

Stallion owners who have not returned their RMBs for the 2013 breeding season are encouraged to do so as soon as possible. Interactive Registration™, which enables registered users to perform virtually all registration-related activities over the Internet, is the most efficient means of submitting RMBs and is available at registry.jockeyclub.com.

The Jockey Club, founded in 1894 and dedicated to the improvement of Thoroughbred breeding and racing, is the breed registry for North American Thoroughbreds. In fulfillment of its mission, The Jockey Club provides support and leadership on a wide range of important industry initiatives and it serves the information and technology needs of owners, breeders, media, fans and farms, among others. Additional information is available at jockeyclub.com.

ROAP BOARD ENDORSES PENALTY GUIDELINES FOR MULTIPLE MEDICATION VIOLATIONS

August 23, 2013 - Release- The Racing Officials Accreditation Program's board of directors voted Thursday to endorse the Penalty Guidelines for Multiple Medication Violations, which passed the Association of Racing Commissioners International (ARCI) Board and Model Rule Committee in July. The vote carried one abstention from the Horsemen's Benevolent & Protective Association representative on the ROAP board.

The Penalty Guidelines for Multiple Medication Violations, which is projected to be implemented in some states as early as January 1, 2014, initiates a point system for equine medication violations similar to that used by state motor vehicle agencies.

The rule calls for points to be assigned to every trainer's fine and suspension history in the ARCI database by way of a separate ruling. That separate ruling would occur in the jurisdiction that issues an underlying equine medication positive test infraction that "triggers" a penalty phase plateau in the points system structure.

"We believe that it is important for ROAP to support the current efforts in the industry to unify medication regulations and specifically the new penalty system given that the stewards and judges will be responsible for implementing these regulations at the track level," said

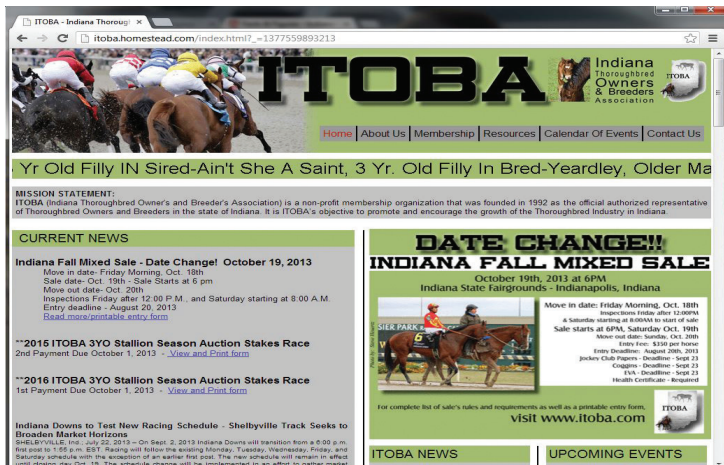

ROAP Chairman Hugh Gallagher. "This is a rule designed to protect our racehorses first. It is a fundamentally sound rule that is ready for implementation today. What lies before us is the challenging work of having all jurisdictions in full participation, compliance and reciprocity as well as a clear understanding of how this rule will be implemented by stewards and judges in North America and the Caribbean."

ROAP accredits stewards, judges, and racing officials in all three disciplines of racing — flat (Thoroughbred and Quarter Horse), harness and steeplechase. Additionally, continuing education courses are required every two years to maintain accreditation. Staying consistent with its mission of education, ROAP will cover the Penalty Guidelines for Multiple Medication Violations in future continuing education seminars.

The board also discussed the success of the most recent Accreditation School held this past July at the Kenneth L. Maddy Laboratory at UC Davis and upcoming educational opportunities including the ROAP Certificate Program at Portland Meadows on September 21-22.

The ROAP board, ROAP's Stewards' Advisory Committee and its Education Committee, will continue to discuss current stewarding issues and educational programs and promote uniformity among racing officials. ROAP, which receives primary funding from The Jockey Club and is based in its Kentucky office, is a 501(c)(6) organization whose board of directors is made up of representatives from 18 industry organizations and eight at-large representatives. Stewards and judges receive their accreditation and continuing education credits through this program.

The website address for ROAP is horseracingofficials.com.
